DETAILED ACTION

The response received 6/02/09 has been placed in the file and was considered by the examiner. This application contains pending claims numbered 11, 15, 23, 26 and 27 which are at issue. Claims 3-5, 10, 12 and 17 were withdrawn. Claims 1-2, 6-9, 13-14, 16, 18-22, 24-25 and 28-31 were canceled.

Claims 11, 15, 23 and 27 are allowed with the following examiner's amendment:

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Peter A. Nieves on 8/28/09.

The application has been amended as follows:

Claims 3-5, 10, 12, 17 and 26 have been canceled.

Claim 23, after the vertically upward direction, (last line), -- ; and wherein a proximate portion of the hook, being proximate to the back portion of the enclosed central loop, is bent relative to the elongated vertical portion of the holding portion such that an imaginary line is a direction extending the proximate portion of the hook would form an obtuse angle with the elongated horizontal surface of the holding portion -- has been inserted.

REASONS FOR ALLOWANCE:

The following is a statement of reasons for the indication of allowable subject matter: Claims 1-6 are allowable over the prior art references of record due to the combination elements as specifically set forth in independent claim 23. Specifically, the prior art of record neither teaches nor suggests the inclusion of, inter alia, "a proximate portion of the hook, being proximate to the back portion of the enclosed central loop, is bent relative to the elongated vertical portion of the holding portion such that an imaginary line in a direction extending the proximate portion of the hook would form an obtuse angle with the elongated horizontal surface of the holding portion"; "the central loop being enclosed on the top portion, the bottom portion, the front portion and the back portion of the central loop" and/or "the top portion of the enclosed central loop and the elongated horizontal portion of the holding portion make one elongated horizontal surface".

The closest prior art of record, Larson (US 2,743,023)), Gebrara (US 6,601,809) or Decker et al. (US 6,543,737) taken as a whole, individually or in combination disclose an apparatus for holding an object having some limitations as claimed but do not provide any teaching or suggestion to meet the above inclusions as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAN LE whose telephone number is (571)272-6818. The examiner can normally be reached on Mon. through Fri. from 9:00 AM-6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allen J. Shriver can be reached on (571) 272-6689. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
